Set 2 Activities

Section-2

All the following problems use the Thirlemere Thoroughbreds (TT) database. Before you answer any of these, you will need to load that database.

- 2.1 List the event_id and event_name for each event, together with the name of the judge who is judging it. (hint - join the event and judge tables)
- 2.2 List the name of each horse who has been awarded a first place. Do not display the name of a horse more than once.
- 2.3 For each event that a horse has entered. List the name of the horse together with the name of the event, and its placing in that event (if any).
- 2.4 For each event, list the name of the event, the name and address of the show that it is in, and the name and address of the judge who is judging it.
- 2.5 For all events at the show named “Dubbo”, list the date of the show, the judge name and the event name.
- 2.6 For each event with a first prize, list the event name and the first prize money.
- 2.7 List event_id, horse_id, place and money. Sort the results into order on event_id then horse_id.
- 2.8 For each event with a first prize, list the show name, event name and first prize money.
- 2.9 List the horse name, show name, event name and place for all horses in events judged by “Green”.
- 2.10 List the event_id and event name for all events entered by Star or Flash and judged by Smith from Melbourne.
